WOOD ENERGY SYSTEMS

Bio-Fuel to **ENERGY**

A-Series

Small Scale Close-coupled Gasifiers
11 to 22 Boiler Horsepower

Clean Bio-Fuel Waste

Moisture Content: 6% to 60% Moisture Content, (wet basis.)

Mineral Content: Less than 10%, (with exceptions.)

Particle size: 2 ½ x 2 ½ ” or smaller. (with exceptions.)

Fines: Less than 5% sander dust and wood flour

- Over 20:1 setback ratio • High temperature combustion
- Retrofits for H.R.T. & most other boilers, often in existing spaces
- Small & compact design • Idles cleanly during low load periods
- Stable load management • Excellent air quality • High fuel efficiency • Low ash
